

NATTVANDRARNA

Sedan 1989

Nattvandrarna

01 Description

Nattvandrarna Sverige (Night Walkers Sweden) is a non-profit, democratically structured organisation with local groups and associations. The purpose and goal of night walking is to provide adult role models, human support and social security among young people who are out in the evenings and at night. Adults are needed who care, listen to and see young people, can set boundaries and give support and help when needed. The presence of the night walkers prevents crime such as vandalism, violence and drug abuse. We work to create trust and build equal relationships. www.nattvandrarna.se
